

ROLL GOODS

Fabric Description	Part No.	Color	Width	Approx. Yds./Roll	Approx. Wt/Roll
Spectra Orange See-Thru The "Ideal" transparent welding curtain material. Patented formula, heavy duty 14 mil vinyl film. Stops dangerous U.V. radiation and minimizes arc glare.*	250-72	Orange/Red	72"	100	165#
	250-60	Orange/Red	60"	100	135#
Spectra Forty Extra thick (40 mil) patented Spectra. Provides extra strength, longevity and added abrasion resistance.*	280-48	Orange/Red	48"	50	160#
See-Thru Welding Material Heavy duty 14 mil vinyl film. Stops dangerous U.V. radiation.*	500-60	Gold (Yellow)	60"	100	135#
	500-72	Gold (Yellow)	72"	100	165#
	600-72	Green	72"	100	165#
	800-72	Gray	72"	100	165#
See-Thru Forty Stops dangerous U.V. radiation. 40 mil thickness provides extra strength, longevity and added abrasion resistance.*	540-48	Amber	48"	50	160#
Plasma See-Thru Heavy duty 14 mil vinyl. Stops dangerous U.V. radiation.*	900-72	Extra Dark Green	72"	100	165#
Rip-Stop Vinyl laminated polyester scrim. Resists tearing ripping, oil, mildew, water and most acids.*	550-61	Black	61"	75	105#
	650-61	Blue	61"	75	105#
	750-61	Orange	61"	75	105#
	850-72	Yellow	72"	75	130#
	950-72	Green	72"	75	130#
Canvas Medium weight, resistant to fire, water and mildew.*	110-60	Green	60"	100	200#
	150-60	Yellow	60"	100	200#
Clear Vinyl Heavy duty 14 mil colorless vinyl film. Excellent for draft curtain, chipping, grinding, paint and general use (not to be used for welding). U.V. absorbers inhibit cracking.*	400-60	Clr/Colorless	60"	100	135#
	400-72	Clr/Colorless	72"	100	165#
Clear Forty Heavy duty 40 mil colorless vinyl film. Excellent for extra protection and abrasion resistance (not to be used for welding). U.V. absorbers inhibit cracking.*	440-48	Clr/Colorless	48"	50	160#
See-Thru Heavy Gauge Heavy gauge vinyls. Transparent - welding, sound reduction, chip control.*	S848-40	Clear	48"	40	240#
	S1648-40	Clear	48"	20	240#
	S848-50	Amber	48"	40	240#
Electro-Safe Heavy duty 12 mil transparent vinyl film. Grounding scrim eliminates static electricity. Grounds to 0 kv. Excellent for clean rooms, dust-free environments, computer enclosures.	450-54	Clr/Colorless	54"	94	100#

* Meets California Fire Marshal requirements.

Custom Fabrication

Wilson makes custom curtains, shrouds, covers or tarps in virtually any size from our wide variety of fire resistant specialty fabrics. We electronically weld or securely sew all products to provide superior quality and long lasting protection. You design it and we will make it; or we're happy to assist you with a design. Cutouts, conveyor belt openings, machine shrouds, weighted hems, wind relief vents and doorways are just a few of the many custom features offered. When designing a custom curtain, choose the proper fabric for the application (contact Wilson customer service for assistance), take into consideration special design features (cut-outs, dimensions, etc.) and determine how the curtain will be supported. Add 10% to the width dimension, if the product is intended for hanging. Special made to order curtains are our specialty!
